19020 ralston St, Orlando, FL 32833

Life in its most vivid form. Bursting with brightness, color, and imagination. I like to think that art should be a pleasurable experience full of fantasy and good vibes.

Most of my subject matter is things we hold dear in our hearts, people, flowers, animals - but definitely with a twist! The combination of detail, somewhat eccentric characters and extremely bright, bold color makes my artwork "jump out" at you and refuse to go unnoticed! I like to paint with raw color straight from the tube in the brightest colors I can lay my hands on, - I feel the combination of the contrast of extreme opposite colors give a dynamic effect- My work is somewhat loud! - I intend it to be that way, - I sometimes describe it as "artwork that won't match your sofa"!

The artist studied Graphic Design at Wigan Art College in England. After finishing college she moved to Rome Italy and painted there for five years. She later moved to Pennsylvania where she worked for a large company as a graphic artist for five years, then moved on to be an Art Director for a regional magazine. In 1992 she moved to Florida to concentrate on her career as an artist- she decided working as an artist was her great desire. Her work is very detailed and of a graphic nature due to her background. She has been working out of Cafe Tu Tu Tangos on international drive for nine years selling her work, she enjoys the interaction with the public and sharing her ideas. Louise also works as an art teacher at The Osceola Center For the Arts, she teaches Beginners/Intermediate drawing for adults also a childrens art class every Wednesday, she finds it very rewarding to inspire her students, over a period of eight years she has motivated hundreds of students to discover their creative talents. She has exhibited in various locations around Orlando, First Thursdays- Orlando Museum Of Art, The Winter Park Doggie Art Festival (poster artist for 2006), The Peacock Room, The Boyd Gallery and also was part of Orlando's "Lizart Program" (Lounge Lizard & Survivor Lizard).
